

California and Oregon Sites Using In-Vessel Composting Systems

The following businesses in California and Oregon are using the Earth Tub in-vessel system to compost their food scraps:

Name and location of business	Type of composting system	Type of food diverted	Quantity of food diverted	Savings on waste disposal
Price Chopper Supermarket, Eugene, Oregon	2 Earth Tubs	Grocery residuals— primarily produce, some bakery and floral residuals.	200 pounds per day	\$2,000 per year
City College of San Francisco	2 Earth Tubs	Cafeteria residuals	250 pounds per week	Not Available
Whole Foods, Sebastapol, California	1 Earth Tub	Produce and deli waste	100 pounds per day	Eliminated one dumpster
Vineyards' Inn Restaurant, Santa Rosa	1 Earth Tub	Restaurant residuals	60-80 pounds per day	Decreased dumpster size from 6 cubic yards to 2 cubic yards, saving \$148/month
Berkeley Worms, Berkeley	1 Earth Tub	Dining hall residuals	Unknown	Not available
